

M06 Multiple hazards as combinations

SYNTHETIC DESIGN RECONSTRUCTION | Not research results

Separate combinations from ordered severity; retain all eight possible codes.

Illustrative hazard overlap

- None
- Flood
- Slide
- Flood + slide
- Erosion
- Flood + erosion
- Slide + erosion
- All three

Code = $F + 2 \cdot S + 4 \cdot E$.

F, S and E are binary masks.

Combination is not severity.

Design sources: A21 | See literature-30.md for figure-level evidence.

WGS 84 / UTM 50N (metres) | Grid north up | White outside domain = NoData

Native ArcMap 10.2; legends and scale graphics are editable but must be rebuilt after data/extent changes.
